Brief Report

On a crisp, sunny day on 17th October 2023 in the heart of Kavalam, Kuttanad, a group of enthusiastic nature club students gathered for a transformative workshop on organic kitchen gardening. Hosted by the esteemed young agriculturist and renowned YouTube vlogger, Mr. Kalesh Kamal, the event proved to be an enlightening experience for all attendees. Mr. Kamal, a fervent advocate for sustainable agriculture, captivated the audience with his profound knowledge and practical approach to organic farming. The highlight of the day was a live demonstration on the preparation of 'jivamritham,' a potent organic fertilizer that left the students awestruck. His step-by-step guidance illuminated the intricate process, underlining the essence of eco-friendly farming practices.

Furthermore, Mr. Kamal delved into innovative techniques, teaching the students how to cultivate vegetables in waste plastic bottles. This ingenious method not only showcased his creativity but also emphasized the significance of recycling and repurposing in modern agriculture. The students eagerly absorbed these methods, inspired to implement them in their own homes and communities. The workshop extended beyond the confines of theory, offering a practical glimpse into the real-world application of organic farming practices. Mr. Kamal graciously invited the students to visit a local school where he was actively implementing a pioneering project on organic farming. The school's lush green campus stood as a testament to the possibilities of sustainable agriculture. The students were given a first hand look at the thriving organic garden, where a variety of vegetables flourished in harmony with nature. Witnessing this success story further motivated the students, instilling in them a passion for cultivating their own organic gardens.

The day spent with Mr. Kalesh Kamal was not merely an educational event but a holistic experience. His expertise, coupled with his charismatic teaching style, inspired the students to embrace organic kitchen gardening as a way of life. Through this workshop, the attendees not only learned the nuances of organic farming but also imbibed the values of environmental conservation and sustainable living.

In conclusion, the day out workshop in organic kitchen gardening at Kavalam, Kuttanad, led by Mr. Kalesh Kamal, was a transformative experience for the nature club students. It not only equipped them with practical skills and knowledge but also ignited a sense of responsibility towards the environment. As these green-minded individuals return to their communities, they carry with them the seeds of change, ready to sow the future of sustainable agriculture.
