Brief Report

On 14-01-2025, a team from Assumption College Autonomous visited the waste management facility at Changanassery to understand its operations, effectiveness, and challenges. The visit aimed to analyze the facility's waste processing methods, environmental impact, and scope for improvement.

- The visit to the Changanassery waste management facility was highly educational, providing firsthand experience of how waste is handled, processed, and repurposed. With strategic improvements, the facility can enhance efficiency, worker welfare, and environmental sustainability. **They use other common points for segregation. MCF is only a building for namesake. I think they use RRF Fathimapuram for more segregation purpose**
