Brief Report

The Butterfly Garden Setting Program aimed to create a natural habitat that supports butterfly conservation and environmental learning. Native flowering and host plants were planted to attract and sustain butterfly populations. The program engaged students and staff in garden planning, planting, and care, offering hands-on learning about biodiversity, pollination, and ecological balance. It enhanced the beauty of the campus and encouraged eco-friendly practices. Overall, the initiative promoted environmental awareness, conservation values, and appreciation for local flora and fauna.
