Brief Report

The Pen Box initiative was established on campus on 25.03.2025 with the objective of reducing plastic waste by collecting used pens for recycling. This program aims to promote environmental sustainability by encouraging students to dispose of non-biodegradable materials responsibly. By providing a designated collection point for used pens, the initiative raises awareness about the impact of plastic waste and the importance of recycling. The program not only fosters eco-friendly habits among students but also contributes to broader sustainability efforts. Through active participation, students are encouraged to take small but meaningful steps toward a greener future.
