Brief Report

On the observance of World Water Day 2025, we, the Bhoomitrasena Club, conducted a WhatsApp campaign against the exploitation of water on campus. The club members produced a simple video and requested that the entire staff and student body adopt it as their WhatsApp status. Our intention was for viewers to pause for a minute to reflect on how fortunate we are to be blessed with the luxury of water and to recognize our irresponsibility in wasting this precious resource. The event was highly successful in conveying its true meaning and fostering awareness about water conservation among the campus community. The campaign encouraged thoughtful engagement and initiated important conversations about sustainable water use across campus.
