Brief Report

As a part of World Wet land Day (February 2nd) celebrations, a visit to nearest wetland, Kadamakudy, was organized on 14th February 2024.

Brochure was circulted among student groups to invite interested students to participate in the visit. Though 28 students gave their names, only 16 could attend due to ongoing internal examinations for third year B.Sc and M.Sc students.

ABOUT KADAMAKKUDY:

Kadamakkudy wetlands is part of Vembanad lake which is one among the Ramsar sites in Kerala. The place is situated around 13 km from Maharaja's College. The presence of wide variety of migratory birds, Mangroves, Watersheets, Pokalli and Prawn Farmlands are the unique features. Wetlands of Kadamakkudy is disappearing and losing its eco-sensitive character by urbanization and improper use of wetlands. Increasing urban developments and infrastucure is a major threat to the wetlands which disturbs the total ecology of the context. Hence awareness about conservation of this wetland is of utmost importance.
